CENTRE FOR EDUCATIONAL TECHNOLOGY

MIER College of Education
Autonomous

Permanently Affiliated to the University of Jammu
Accredited by the NAAC with 'A+' Grade

Centre For Educational Technology (CET)

Objectives

- To implement Technology Enabled Learning (TEL) Policy developed in collaboration with Commonwealth of Learning, Canada.
- To adopt state of the art and cutting edge technologies across all programmes offered by the college.
- To develop, adapt and facilitate the sharing of Open Educational Resources and MOOCS.
- To organize trainings, workshops, seminars and conferences to popularize the use of innovative educational technologies among faculty and students.
- To carry out research studies and experiments on the use of new technologies in education at different levels for improving the teaching-learning process.
- To provide an effective learning experience for students through a centralised "Learning Management System".

About the Centre

The Centre for Educational Technology was established in 2006. It acts as a catalyst platform for the transformation of education by seamlessly blending the benefits of traditional teaching with modern educational information and communication technologies thereby creating a vibrant learning environment.

The centre is focussed on the integration and application of these technologies, associated hardware and software in the fields of teaching, learning, evaluation, guidance, training, institutional management and research.

The CET is also making efforts to popularize practices like e-learning (both online and offline) and educational use of digital and allied technologies. It has collaboration with external agencies for introducing the latest and innovative trends in the field of educational technology.

The centre maintains the College ERP and website and promotes the presence of the college in print and digital media. It also provides technical support in various programmes organised by the college.

Achievements

- Received "Tech Savvy Higher Education Institution in India" award in recognition of the digital initiatives taken by the college.
- Conducted an impact study on "Technology Innovations during the Pandemic" which was published in the "New Code of Education Awards 2021"
- Collaborated with Commonwealth of Learning (CoL), Canada for adoption and implementation of policies and strategies for technology-enabled learning.
- Pioneered in establishing Technology Supported Classrooms in J&K.
- Developed blended learning courses in various programmes.
- Implemented campus wide WiFi project with fibre based high speed Internet connectivity.
